COVERAGE

MATERIALS

Material promise

We source GOTS-certified organic cotton, TENCEL™ lyocell, and recycled fibres to keep the product line soft, durable, and responsible.

SERVICE

Customer promise

Orders are packed discreetly, shipped with care, and supported by a human-first customer service approach based in Nairobi.

Executive Summary

A concise view of how Aura Intimates balances luxury, responsibility, and customer experience.

What this report shows

Aura Intimates is designed as a premium Kenyan intimates brand with sustainability embedded into product selection, packaging, delivery, and support. This report summarizes the current operating principles and the next steps that will keep the brand transparent and trusted.

BRAND

Design principle

Luxury should feel calm, clear, and intentional. Our layouts, packaging, and product storytelling reflect that standard.

OPERATIONS

Operational lens

The brand focuses on discreet packing, efficient support, and delivery transparency across Kenya.

ROADMAP

Future focus

We are building the systems needed for tracking, confirmations, and richer customer notifications.

Impact by Pillar

How the brand is structured around materials, water, packaging, and people.

ORGANIC CERTIFIED

Organic Materials

100
%

We aim to use certified organic cotton and premium responsible fibres for softness and durability.

LESS WATER USE

Water Consciousness

80%

Dyeing and finishing are selected to reduce water impact while keeping colour quality high.

PLASTIC PACKAGING

Circular Packaging

0%

Packaging is designed to be compostable or recyclable, with privacy and presentation kept intact.

FAIR TRADE PARTNERS

Fair Trade Partners

100
%

We value safe working conditions, living wages, and respectful production partnerships.

Delivery and support standards

- Orders are packed in plain, unmarked boxes to protect customer privacy.
- Tracking and order confirmation messages should be added as the backend evolves.
- Customer support is designed to respond quickly on WhatsApp and email.

Roadmap & Accountability

The next improvements that will make the report even more complete and business-ready.

What comes next

01

Live order tracking

Connect the order-tracking page to real transaction and shipping events from the backend.

02

Automated customer updates

Send order confirmation, shipping, and delivery messages via WhatsApp or SMS.

03

Supplier transparency

Publish supplier and material sourcing details in a cleaner table format over time.

04

Annual comparison

Track year-on-year improvements in packaging, water use, and customer service response.
